DEFEND, PROMOTE AND PROTECT THE HUMAN RIGHTS OF ACID ATTACK SURVIVORS

LEY NATALIA PONCE DE LEÓN

The Law of Victims of Attacks with Acid, typifies this behavior as an autonomous offense; toughens sanctions on aggressors; and eliminates benefits, such as the conditional suspension of the execution of the sentence.

“As I walked out the door toward the gate that would lead to my freedom, I knew if I didn’t leave my bitterness and hatred behind, I’d still be in prison.”
